EXECUTIVE ORDER D-42-85

WHEREAS, the State of California has requested a ruling from the Internal Revenue Service concerning the application of Section 414(h)(2) of the Internal Revenue Code (26 USCA Section 414(h)(2)) to retirement contributions for State employees belonging to the Public Employees' Retirement System; and

WHEREAS, Section 414(h)(2) of the Internal Revenue Code empowers employers to "pick-up" retirement contributions on behalf of employees. Such contributions are not included in the employee's gross income in the year in which such amounts are contributed. Such amounts are includable in the gross income of the employee of beneficiary in the taxable year in which such amounts are distributed; and

WHEREAS, Chapter 794, Statutes of 1983, provides that the State may pay all or a portion of the normal contributions to be paid by a State member of the Public Employees' Retirement System and that such payments shall be credited to member accounts; and

WHEREAS, the Internal Revenue Service has ruled that, in light of Chapter 794, Statutes of 1983, retirement contributions paid by the State on behalf of employees are covered by IRC Section 414(h)(2); and

WHEREAS, the State Revenue and Taxation Code Section 17201 incorporates the provisions of IRC Section 414(h)(2); and

WHEREAS, Chapter 794, Statutes of 1983, further states that its provisions shall be subject to applicable collective bargaining laws; and

WHEREAS, the Department of Personnel Administration is the Executive branch agency responsible for salary administration for State employees exempted by law from collective bargaining;

NOW, THEREFORE, I, GEORGE DEUKMEJIAN, Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby issue this order:

The Department of Personnel Administration is hereby directed to implement, effective with the February pay period, the provisions contained in Section 414(h)(2) of the Internal Revenue Code concerning the tax treatment of employee retirement contributions paid by the State of California on behalf of Management, Supervisory, Confidential and Excluded employees. The Department is also directed to meet with appropriate labor organizations to discuss implementation of the provisions for employees subject to collective bargaining.

Pursuant to Section 414(h)(2) contributions to a pension plan, although designated under the plan as employee contributions when paid by the employer in lieu of contributions by the employee, under circumstances in which the employee does not have the option of choosing to receive the contributed amounts directly instead of having them paid by the employer, may be excluded from the gross income of the employee until these amounts are distributed or made available to the employee. Implementation of Section 414(h)(2) is accomplished through a reduction in wages pursuant to the provisions of this Order.

1. DEFINITIONS. Unless the context otherwise requires, the definitions in the Order govern the construction of the Order.

- A. "Employees". The term "employees" shall mean those employees and officers of the State of California designated as Management, Supervisory, Confidential or Excluded who made employee contributions to the PERS retirement system.
- B. "Employee Contributions". The term "employee contributions" shall mean those contributions to the PERS retirement system which are deducted from the salary of employees and credited to individual employee's accounts.
- C. "Employer". The term "employer" shall mean the State of California.
- D. "Gross Income". The term "gross income" shall mean the total compensation paid to employees designated as Management, Supervisory, Confidential and Excluded by the State of California as defined in the Internal Revenue Code and rules and regulations established by the Internal Revenue Code.
- E. "Retirement System". The term "retirement system" shall mean the PERS retirement system as made applicable to the State of California under the provisions of the Public Employees' Retirement Law (California Government Code Section 20000, et seq.).
- F. "Wages". The term "wages" shall mean the compensation paid to employees covered by this Order.

2. PICK-UP OF EMPLOYEE CONTRIBUTIONS.

- A. Pursuant to the provisions of the Order, the employer shall make employee contributions on behalf of employees, and such contributions shall be treated as employer contributions in determining tax treatment under the Internal Revenue Code of the United States. Such contributions are being made by the employer in lieu of employee contributions.
- B. Employee contributions made under Paragraph A of this Order shall be paid from the same source of funds as used in paying the wages to affected employees.
- C. Employee contributions made by the employer under Paragraph A of this Order shall be treated for all purposes other than taxation in the same manner and to the same extent as employee contributions made prior to the effective date of this Order.
- D. The employee does not have the option to receive the employer contributed amounts paid pursuant to the agreement directly instead of having them paid to the retirement system.

3. WAGE ADJUSTMENT.

Notwithstanding any provision in existing pay letters, the wages of employees shall be reduced by the amount of employee contributions made by the employer pursuant to the provisions hereof.

4. LIMITATION TO OPERABILITY.

This order shall be operative only as long as the State of California pick-up of employee retirement contributions continues to be excludable from gross income of the employee under the provisions of the Internal Revenue Code.

EXECUTIVE ORDER D-44-85

WHEREAS, Government Code Section 20816 permits State employees (including members of the State Teachers' Retirement System designated as State employees) and higher education employees who are members of the Public Employees' Retirement System to receive an additional two (2) years of service credit whenever the Governor determines by executive order that

- 1) because of an impending curtailment of or change in the manner of performing services, the best interests of the State would be served by encouraging the retirement of State employees; and
- 2) sufficient economies could be realized to offset any cost to State agencies resulting from award of such credit; and

WHEREAS, the impact of changes in funding levels and methods of providing services to achieve program efficiencies may result in a curtailment of employees in State government, the University of California, and the California State University; and

WHEREAS, the best interests of the State would therefore be served by encouraging the retirement of State employees through the award of an additional two years of service credit; and

WHEREAS, sufficient economies could be realized to offset any cost to State agencies resulting from the award of such credit;

NOW, THEREFORE, I, GEORGE DEUKMEJIAN, Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby issue this order to be implemented according to the following criteria:

- B. State agencies, other than the University of California and California State University, shall submit applications to participate in the program to the Department of Personnel Administration after securing approval of the appropriate Agency Secretary.

- D. All applications shall include documentation of staff reductions, associated costs of participating in the Program, anticipated savings and other relevant information supporting the proposal.
- E. The Department of Personnel Administration will transmit approved State agency applications to the Department of Finance for fiscal review.
- F. Payment of Public Employees' Retirement System and State Teachers' Retirement System costs will be made in a manner and time acceptable to participating State agencies, University of California, California State University, Public Employees' Retirement System and State Teachers' Retirement System Boards, and the Department of Finance.
- G. For State agencies electing to participate in the program, the early retirement period will terminate 60 days from the effective date of this Executive Order.
- H. If the University of California and California State University elect to participate in the program, the eligibility period will not exceed 60 days and will commence on the respective dates agreed to by those organizations and the Department of Finance.
- I. State agencies, the University of California, and the California State University are hereby advised that this program is to be viewed as a means to alleviate or minimize the stress and hardship on personnel in those areas of government facing staff reductions.
- J. Although the applications of the various agencies may be accepted, employee participation is totally voluntary.
- K. All approved plans are subject to the provisions of Government Code Section 20816.

AMENDED EXECUTIVE ORDER D-44-85

WHEREAS, Government Code Section 20816 permits State employees (including members of the State Teachers' Retirement System designated as State employees) and higher education employees who are members of the Public Employees' Retirement System to receive an additional two (2) years of service credit whenever the Governor determines by executive order that

- 1) because of an impending curtailment of or change in the manner of performing services, the best interests of the State would be served by encouraging the retirement of State employees; and
- 2) sufficient economies could be realized to offset any cost to State agencies resulting from award of such credit; and

WHEREAS, the impact of changes in funding levels and methods of providing services to achieve program efficiencies may result in a curtailment of employees in State government, the University of California, and the California State University; and

WHEREAS, the best interests of the State would therefore be served by encouraging the retirement of State employees through the award of an additional two years of service credit; and

WHEREAS, sufficient economies could be realized to offset any cost to State agencies resulting from the award of such credit;

NOW, THEREFORE, I, GEORGE DEUKMEJIAN, Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby issue this order to be implemented according to the following criteria:

- A. State agencies facing staff reductions are eligible to participate in the Early Retirement Program.
- B. State agencies, other than the University of California and California State University, shall submit applications to participate in the program to the Department of Personnel Administration after securing approval of the appropriate Agency Secretary.
- C. The University of California and California State University will utilize the same criteria as applied to their respective programs, and if electing to participate in the program, will submit their applications directly to the Department of Finance for fiscal review.

- D. All applications shall include documentation of staff reductions, associated costs of participating in the Program, anticipated savings and other relevant information supporting the proposal.
- E. The Department of Personnel Administration will transmit approved State agency applications to the Department of Finance for fiscal review.
- F. Payment of Public Employees' Retirement System and State Teachers' Retirement System costs will be made in a manner and time acceptable to participating State agencies, University of California, California State University, Public Employees' Retirement System and State Teachers' Retirement System Boards, and the Department of Finance.
- G. This Amended Executive Order extends the early retirement period established by Executive Order D-44-85. For State agencies electing to participate, the Early Retirement Program will now terminate on June 30, 1985. This extension will provide additional time for employees to consider their retirement options.
- H. If the University of California and California State University elect to participate in the program, the eligibility period will not exceed 60 days and will commence on the respective dates agreed to by those organizations and the Department of Finance.
- I. State agencies, the University of California, and the California State University are hereby advised that this program is to be viewed as a means to alleviate or minimize the stress and hardship on personnel in those areas of government facing staff reductions.
- J. Although the applications of the various agencies may be accepted, employee participation is totally voluntary.
- K. All approved plans are subject to the provisions of Government Code Section 20816.

STATE OF EMERGENCY

I, **GEORGE DEUKMEJIAN**, Governor of the State of California, find that conditions of extreme peril to the safety of persons and property exist within the County of Ventura, State of California, beginning on June 27, 1985, as a result of major fires. Because the magnitude of this disaster exceeds the capabilities of the services, personnel, and facilities of the County, and because of the existing conditions and continuing fires, I therefore proclaim a State of Emergency to exist in the County of Ventura; and

I **FURTHER DIRECT** that as soon hereafter as possible, this proclamation be filed in the Office of the Secretary of State and that widespread publicity and notice be given to this proclamation.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 11th day of July 1985.

A PROCLAMATION
by the Governor of the State of California

By virtue of the authority vested in the Office of the Governor by the federal Tax Reform Act of 1984 (Public Law 98-369), I, George Deukmejian, as Governor of the State of California, hereby proclaim as follows:

- I. Unless the context otherwise requires, the terms defined in this Section shall for all purposes of this proclamation have the following meanings:
 - (a) "Committee" means the California Debt Limit Allocation Committee established pursuant to Section 5 of this proclamation.
 - (b) "Code" means the Internal Revenue Code of 1954, as amended.
 - (c) "County Population Share" means for each calendar year for each county or city and county a percentage calculated by taking as the numerator the most recent State Population Estimate of the entire population of such county or city and county and by taking as the denominator the most recent State Population Estimate of the state.
 - (d) "Issuer" means any local agency or state agency authorized by the Constitution or laws of the state to issue Private Activity Bonds.
 - (e) "Local Agency" means any political subdivision of the state within the meaning of Section 103(a)(1) of the Code, or any entity that has the power to issue Private Activity Bonds "on behalf of" any such political subdivision.
 - (f) "Local Population Share" means, for each calendar year (i) for each city or city and county, a percentage calculated by taking as the numerator the most recent State Population Estimate of the population of such city or city and county, and by taking as the denominator the most recent State Population Estimate of the population of the state; and (ii) for each county, a percentage calculated by taking as the numerator the most recent State Population Estimate of the population of the unincorporated area of the county, and by taking as the denominator the most recent State Population Estimate of the population of the state.
 - (g) "Private Activity Bond" has the same meaning as that specified in Section 103(n)(7) of the Code.
 - (h) "Private Activity Bond Limit" means any part of the State Ceiling allocated or transferred to a state agency or local agency pursuant to this proclamation.

- (i) "State" means the State of California.
 - (j) "State Agency" means the State and all state entities, including joint powers authorities of which the State or agency or instrumentality thereof is a member, empowered to issue Private Activity Bonds, the interest on which is exempt from income tax under Section 103(a) of the Code, including nonprofit corporations described in Section 103(e) of the Code authorized to issue student loan bonds.
 - (k) "State Bond Limit" means the 50% of the State Ceiling initially allocated to the State pursuant to Section 3(a) of this proclamation, together with any amounts transferred to the State pursuant to Section 7.
 - (l) "State Ceiling" shall be the amount specified by Section 103(n)(4) of the Code for each calendar year commencing in 1984.
 - (m) "State Population Estimate" means, with respect to any calendar year, the most recent estimate of population of California cities and counties published by the State Department of Finance before the beginning of the calendar year.
 - (n) "Unused allocation" means, with respect to any Local Agency, the aggregate Private Activity Bond Limit obtained through Sections 3 and 7, minus the amounts used to issue bonds, to make a carryforward election, or to make a transfer, as reported to the Committee pursuant to Section 8(b).
2. Pursuant to Section 103(n)(6)(B) of the Code, this proclamation shall govern the allocation of the State Ceiling among the governmental units in this state having authority to issue Private Activity Bonds. Any allocation granted or transferred by or under the authority of this proclamation shall become the Private Activity Bond Limit for the issuer to which such allocation is granted or transferred for any Private Activity Bonds issued by such issuer.
3. (a) There is hereby allocated to the state agencies in each calendar year an amount equal to fifty percent (50%) of the State Ceiling.
- (b) There is hereby allocated to each city, county, and city and county in each calendar year an amount equal to thirty-five percent (35%) of the State Ceiling multiplied by the Local Population Share of each such city, county, or city and county.

- (c) There is hereby allocated to each county (including any city and county) in each calendar year an amount equal to fifteen percent (15%) of the State Ceiling multiplied by the County Population Share of each such county.
 - (d) The allocations provided for in subsections (a), (b) and (c) shall be calculated by the Committee, and may be rounded to the nearest \$1,000.
4. (a) In order that none of the allocation of local agencies be unused at the end of the calendar year, the Committee intends to reallocate the Unused Allocation. For the purpose of reallocation, on October 15 of each calendar year, any Unused Allocation of any local agency shall automatically be transferred to the State, to become part of the State Bond Limit, unless the local agency files a notice pursuant to subsection (b) with the Committee prior to October 15.
- (b) In order to retain part or all of its Unused Allocation, a local agency shall file with the Committee, on a form to be prescribed by the Committee, a notice stating the local agency's election not to allow the transfer of part or all of its Unused Allocation to the State pursuant to subsection (a). Such election shall be effective upon being submitted to the Committee prior to October 15. The making of this election is solely within the discretion of each local agency, and the local agency does not have to use its Unused Allocation before the end of the calendar year. Nothing in this section shall prevent a local agency which has made the aforementioned election from transferring its Unused Allocation after October 15, pursuant to Section 7. Local agencies which are required to retain a portion of their Private Activity Bond Limit for a project pursuant to Section 631(a)(3) of the Tax Reform Act of 1984 shall preserve such rights by making the election provided in this Section.
5. (a) The Committee is hereby established, consisting of the State Treasurer, the State Controller and the Governor, or in the Governor's absence the Director of Finance, any of whom may act through a designee. The State Treasurer shall be the Chairman of the Committee and the Office of the State Treasurer shall provide such administrative assistance and support staff as shall be necessary for the Committee to operate. Members of the Committee shall serve without compensation. The Chairman shall keep or cause to be kept minutes and other records and documents of the Committee.
- (b) Two members of the Committee shall constitute a quorum. The affirmative vote of two members of the Committee shall be necessary for any action taken by the Committee; provided, however, that the Committee may by unanimous vote delegate to its Chairman the authority to carry out any acts empowered to it under this proclamation.

- (c) The Committee shall as soon as is practicable after the start of each calendar year, determine and announce the State Ceiling for the calendar year, and the allocations provided in Section 3.
- 6. (a) Each state agency shall apply to the Committee prior to issuing any Private Activity Bonds, supplying such information as the Committee may require. Such application may be for a specific project, or it may be for a designated dollar amount, to be utilized for projects at the discretion of the state agency. No Private Activity Bonds issued by any state agency shall be deemed to receive the benefit of any portion of the State Bond Limit unless the Committee has allocated a portion of the State Bond Limit to the state agency. Such allocation may be on such terms and conditions as the Committee may determine.
- (b) Any local agency may apply to the Committee for an allocation of a portion of the State Bond Limit, supplying such information as the Committee may require. Applications from local agencies may only be for specific projects or programs. The Committee may transfer to a local agency a portion of the State Bond Limit upon such terms and conditions as the Committee may determine.
- (c) Any allocation made or transferred pursuant to this section shall be irrevocable upon issuance of bonds pursuant thereto at least to the extent of the principal amount of such bonds so issued and any such allocation or transfer shall permit the state agency or local agency receiving same and any transferee thereof to treat all or any portion of such allocation or transfer as a carryforward pursuant to Section 103(n)(10) of the Code unless the resolution or other action making such allocation or transfer provides otherwise.
- (d) No allocation made to a state agency or transferred to a local agency pursuant to this Section may be transferred by the initial recipient thereof to any other state agency or local agency without the consent of the Committee.
- 7. To further implement the provisions hereof, any local agency may, by resolution, transfer to any other local agency or to the State all or any portion of such local agency's Private Activity Bond Limit, subject to the provisions of Section 6(c), if applicable, and Section 9. Any such transfer shall be made in writing and may be general or limited and subject to such terms and conditions as may be set forth in said resolution; provided that any such transfer shall be irrevocable upon issuance of bonds pursuant to such transfer at least to the extent of the principal amount of

such bonds so issued. Each transferee shall maintain a written record of the transfer in its records for at least the term of all Private Activity Bonds issued pursuant to such transfer. No transfer may be made pursuant to this Section in return for any payment of cash, property or other marketable thing of value, except that a local agency may charge an administrative fee not to exceed \$1,000 to recover its actual costs of processing a request for a transfer of Private Activity Bond Limit.

8. (a) Subject to any limitations on transferred Private Activity Bond Limit as may be provided in Sections 6 and 7, any State Agency or local agency may utilize its Private Activity Bond Limit (i) for the issuance of Private Activity Bonds, (ii) to make a carryforward election pursuant to Section 103(n)(10) of the Code, or (iii) to make a transfer to the State or to any local agency.
- (b) No issue of Private Activity Bonds shall be deemed to have received the benefit of any portion of an allocation made or transferred to the Issuer pursuant to this proclamation unless the Issuer's bond resolution or other similar action giving final authority for the issuance of bonds specifically designates a portion of the Issuer's Private Activity Bond Limit to such bond issue. Any such designation shall be irrevocable upon the issuance of such bonds to the extent of the principal amount thereof.
- (c) Each state agency and local agency shall notify the Committee in writing within 15 days after (i) the issuance of any Private Activity Bonds, (ii) any action taken pursuant to Section 7 to transfer any portion of its Private Activity Bond Limit to the State or another local agency, or (iii) any election to treat all or any portion of such State Agency's or local agency's Private Activity Bond Limit as a carryforward pursuant to Section 103(n)(10) of the Code. The Committee (or upon its termination, the State Treasurer) shall keep such notices in its records for a period no less than the term of all Private Activity Bonds issued pursuant to such notices.
9. Each county, and city and county, acting through its board of supervisors, shall give priority in application of the allocations granted by Section 3(c) to assist issuance of Private Activity Bonds by the county (to the extent the county has fully utilized its share of the allocation granted by Section 3(b)), by local agencies within the county, or by local agencies whose territory contains part or all of the territory of the county. The county may transfer, pursuant to Section 7, part of the allocation granted by Section 3(c) to the State or to a local agency whose territory is entirely outside the county only upon making a determination that it does not reasonably expect to grant requests to use such amount of its Private Activity Bond Limit for any projects or programs described in the first sentence of this Section.

PAGE 6

10. The Committee may request local agencies and state agencies to provide the Committee with information pertaining to the amount and purpose of anticipated future Private Activity Bond issues, or any other information which may be held useful to the Committee in performing its duties and responsibilities hereunder.
11. The Committee or any local agency may transfer any Private Activity Bond Limit directly to any joint powers authority created pursuant to Government Code Section 6500 et. seq. This Section is specifically intended to be an expressed statement of an alternative allocation as provided in Temporary Treasury Regulations Section 1.103(n)-3T, A-14 and A-15.
12. This Proclamation amends and supersedes the Proclamation dated July 19, 1984. Nothing contained in this Proclamation shall affect the validity of any bonds issued, or any Private Activity Bond Limit allocated or transferred, prior to the date hereof, in compliance with the Proclamation of July 19, 1984.
13. I hereby certify under penalty of perjury that none of the allocations contained in the proclamation was made in consideration of any bribe, gift, gratuity, or direct or indirect contribution to any political campaign.

EXECUTIVE ORDER D-45-85

WHEREAS, the country of South Africa is the only nation in the world which constitutionally enshrines a political system whereby a small minority of the population has the power and authority to separate, discriminate against, and deny fundamental political, social, and economic rights to the majority of its population solely on the basis of race; and

WHEREAS, this system of apartheid is contrary to the basic religious and political assumptions underlying our nation which hold that all people are created equal with the inalienable right to life, liberty, and the pursuit of happiness; and

WHEREAS, the United States of America has rejected the separate and unequal treatment on the basis of race as ethically immoral and politically indefensible; and

WHEREAS, Californians of all races, creeds and religions regard the policies and practices of apartheid in South Africa as they do other policies and practices throughout the world intended to suppress rather than to protect the civil rights of every human being, as repugnant to the principles of individual liberty, social justice and political and economic enfranchisement which are the bases of government policies in free societies everywhere; and

WHEREAS, "good corporate citizenship" and social and moral concerns are appropriate factors to be considered in making investment decisions; and

WHEREAS, corporations doing business in South Africa, through their employment policies, can serve as forces for social and political change within South Africa; and

WHEREAS, the selective investment of trust funds within the control of state investment agencies may encourage corporations to adopt responsible employment policies in South Africa, and thereby hasten the end of that nation's policies of apartheid; and

WHEREAS, any policy of selective investment must comport with provisions of California law which require that in the investment of state trust funds, primary consideration must be given to the safety, rate of return, and present and future opportunities for diversification, without impairing contractual obligations; and

WHEREAS, restrictions on the investment of California trust funds in financial institutions and companies doing business with the government of South Africa can be achieved without monetary loss to state trust funds, and can be accomplished in a reasonable and prudent manner; and

WHEREAS, the "Sullivan Principles" prescribe a reasonable code of conduct for corporations doing business in South Africa, and provide appropriate guidelines for the investment of state trust funds;

NOW, THEREFORE, I, GEORGE DEUKMEJIAN, Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby issue this order to become effective immediately:

Section 1. The governing boards of the Public Employees' Retirement System, the Legislators' Retirement System, the Judicial Retirement System and the State Teachers' Retirement System are requested to:

- a. review on a case-by-case basis the quality of corporate citizenship of companies included in the investment portfolios of their respective retirement systems, and of banks and financial institutions with which the retirement system places its funds, such review to occur no less than once annually and to be informed by the services of knowledgeable third parties including but not limited to the Investor Responsibility Research Center, the International Council for Equal Opportunities Principles, Inc., and similarly reputable organizations; and
- b. consider shareholder resolutions in which the retirement systems would have reason to be interested on social or moral grounds, as such may be proposed, and promptly consider ways of improving the exercise by the retirement system of its shareholding voting rights for the purpose of promoting good corporate citizenship by companies in which the retirement system is invested; and
- c. with respect to companies doing business in South Africa, regard the vigorous promotion of racial equality as being required by the retirement system's definition of good corporate citizenship; and review the performance of such companies on a case-by-case basis using the Sullivan Principles, or an equivalent code of corporate conduct consistent with the spirit of the Sullivan Principles, as the guide to determining good corporate citizenship, and regard the failure to meet the test of good corporate citizenship by such companies as a presumption for the retirement system not to invest in such companies, or, if an interest is already held, to sell the retirement system's interest in such companies over a reasonable period of time, provided such action is consistent with the fiduciary duties of the governing board; and
- d. regard companies doing business in South Africa with a rating on the Sullivan Principles performance of Category I (making good progress) or Category II (making progress), or a comparable level of performance on an equivalent code of corporate conduct, as presumptively meeting the standard for good corporate citizenship. The governing board shall promptly review all investments in companies doing business in South Africa which do not meet this presumptive standard and undertake appropriate action on a case-by-case basis, consistent with the policies established herein, to dispose of investments in such companies; and
- e. make no new investments in companies doing business in South Africa which are not rated in Categories I or II as to compliance with the Sullivan Principles, or a comparable level of performance on an equivalent code of corporate conduct, except when necessary to fulfill the system's

fiduciary obligation as determined by the governing board;
and

- f. assist in the formation of consortia of universities, companies and institutional investors organized for the purpose of fostering efforts by U. S. firms doing business in South Africa to improve the education, health, social, and economic conditions of non-whites in South Africa and to improve the effectiveness of the Sullivan Principles; and
- g. study the feasibility of establishing one or more South African Free supplemental retirement funds for members of the retirement system who wish to place their contributions into such a fund.

Section 2. The governing board shall annually submit to the Governor a report describing actions taken by them in accordance with the provisions of this order.

Section 3. As used in this order, the term "Sullivan Principles" refers to the (Sullivan) Statement of Principles (Fourth Amplification), November 8, 1984.

PROCLAMATION
OF A
STATE OF EMERGENCY

I, GEORGE DEUKMEJIAN, Governor of the State of California, find that conditions of extreme peril to the safety of persons and property exist within the State of California as a result of finding the aquatic weed known as hydrilla near the Sacramento River in Shasta County on September 13, 1985.

Hydrilla has been declared a "noxious weed" by the United States Department of Agriculture because, among other things, it spoils water quality, destroys wildlife habitat, clogs and damages waterways, and threatens water supply to persons and communities which draw from bodies of water infested by hydrilla.

Because the growth pattern of this weed is so prolific, the eradication measures required exceed the capabilities of the services, personnel, equipment, and facilities of said County and having now been requested by the Board of Supervisors of said County, I therefore proclaim the existence of a state of emergency in the County of Shasta and direct the State Department of Food and Agriculture to expeditiously take the appropriate steps to eradicate this hydrilla problem.

I FURTHER DIRECT that as soon hereafter as possible, this proclamation be filed in the Office of the Secretary of State and that widespread publicity and notice be given to this proclamation.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 23rd day of October 1985.

EXECUTIVE ORDER D-51-86

WHEREAS, the economic strength and vitality of California's economy are being undermined by the expansion of an "underground economy," in which the payment of payroll and sales taxes, the withholding of income taxes, and the filing of legally required reports with state and federal taxing agencies are avoided through the use of cash payments for goods and services; and

WHEREAS, underground economic activity currently amounts to an estimated \$40 billion in otherwise legal business transactions in California without the payment of any taxes to state government; and

WHEREAS, it is estimated that California loses more than \$2 billion each year in income taxes alone because of the underground economy; and

WHEREAS, all law-abiding taxpayers, employers and employees in California are harmed by these illegal activities; and

WHEREAS, the Commission on California State Government Organization and Economy, known as The Little Hoover Commission, undertook a major study of California's underground economy to identify ways in which the state can more effectively deter these activities through detection and enforcement; and

WHEREAS, The Little Hoover Commission recommends the establishment of a multi-agency task force to develop steps to improve the effectiveness of the state government in eliminating underground economic activities;

NOW, THEREFORE, I, GEORGE DEUKMEJIAN, Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby issue this order to become effective immediately:

1. There is hereby created a multi-agency task force, composed of representatives of the Department of Industrial Relations, the Employment Development Department, and the Contractors State License Board.

The Franchise Tax Board and the Board of Equalization are invited and encouraged to join in the work of the multi-agency task force and to become signatories to interagency agreements among members of the task force.

2. The task force shall be charged with the following nonexclusive responsibilities:

- a. to enhance the development and sharing of information necessary to combat the underground economy;

- b. to improve the coordination of enforcement activities; and
 - c. to develop methods to pool and focus the enforcement resources of all members of the task force in support of the enforcement activities of individual agencies.
3. The task force is authorized and empowered:
- a. to form multi-agency teams when appropriate to utilize the collective investigative and enforcement capabilities of the task force members; and
 - b. to establish committees and promulgate rules of procedure as required or convenient in carrying out activities of the task force; and
 - c. to solicit the cooperation and participation of district attorneys and the Attorney General in the work of the task force.
4. All state agencies reporting to the Governor are directed, and all other public entities are requested, to assist the task force and its subordinate bodies in the implementation of this executive order.
5. The task force shall submit a report to the Governor on its work and accomplishments on or before March 1 of each year.
6. The Director of the Department of Industrial Relations shall serve as chairperson of the Task Force.

EXECUTIVE ORDER D-53-86

WHEREAS, the State of California has the authority to implement the provisions of Section 414(h)(2) of the Internal Revenue Code (IRC); and

WHEREAS, the Teachers' Retirement Board of the California State Teachers' Retirement System adopted its resolution re Section 414(h)(2) IRC on October 18, 1985; and

WHEREAS, the Internal Revenue Service has stated on December 26, 1985 that the implementation of the provisions of Section 414(h)(2) IRC pursuant to the resolution of the Teachers' Retirement Board would satisfy the legal requirements of Section 414(h)(2) IRC; and

WHEREAS, the Revenue and Taxation Code Section 17501 incorporates the provisions of IRC Section 414(h)(2); and

WHEREAS, the Department of Personnel Administration is the executive branch agency responsible for salary administration for State employees exempted by law from collective bargaining;

NOW, THEREFORE, I, GEORGE DEUKMEJIAN, Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby issue this order:

The Department of Personnel Administration is hereby directed to implement, effective with the August pay period, the provisions contained in Section 414(h)(2) of the Internal Revenue Code concerning the tax treatment of employee retirement contributions paid by the State of California on behalf of Management, Supervisory, Confidential and Excluded employees who are members of the State Teachers' Retirement System. Implementation of these provisions for employees subject to collective bargaining shall not become effective unless and until it is agreed to in a collective bargaining agreement with the employees' exclusive representative.

Pursuant to Section 414(h)(2), contributions to a pension plan, although designated under the plan as employee contributions when paid by the employer in lieu of contributions by the employee, under circumstances in which the employee does not have the option of choosing to receive the contributed amounts directly instead of having them paid by the employer, may be excluded from the gross income of the employee until these amounts are distributed or made available to the employee. Implementation of Section 414(h)(2) is accomplished through a reduction in wages pursuant to the provisions of this Order.

1. **DEFINITIONS.** Unless the context otherwise requires, the definitions in the Order govern the construction of the Order.
 - A. "Employees". The term "employees" shall mean those employees and officers of the State of California designated as Management, Supervisory, Confidential or Excluded who made employee contributions to the STRS.

- B. "Employee Contributions". The term "employee contributions" shall mean those contributions to the STRS which are deducted from the salary of employees and credited to individual employee accounts.
- C. "Employer". The term "employer" shall mean the State of California.
- D. "Gross Income". The term "gross income" shall mean the total compensation paid to employees designated as Management, Supervisory, Confidential and Excluded by the State of California as defined in the Internal Revenue Code and rules and regulations established by the Internal Revenue Code.
- E. "Retirement System". The term "retirement system" shall mean the STRS as made applicable to the State of California under the provisions of the State Teachers' Retirement Law (California Education Code Section 22000, et seq.).
- F. "Wages". The term "wages" shall mean the compensation paid to employees covered by this Order.

2. PICK-UP OF EMPLOYEE CONTRIBUTIONS.

- A. Pursuant to the provisions of the Order, the employer shall make employee contributions on behalf of employees, and such contributions shall be treated as employer contributions in determining tax treatment under the Internal Revenue Code of the United States. Such contributions are being made by the employer in lieu of employee contributions.
- B. Employee contributions made under Paragraph A of this Section shall be paid from the same source of funds as used in paying the wages to affected employees.
- C. Employee contributions made by the employer under Paragraph A of this Section shall be treated for all purposes other than taxation in the same manner and to the same extent as employee contributions made prior to the effective date of this Order.
- D. The employee does not have the option to receive the employer contributed amounts paid pursuant to the agreement directly instead of having them paid to the retirement system.

3. WAGE ADJUSTMENT

Notwithstanding any provision in existing pay letters, the wages of employees shall be reduced by the amount of employee contributions made by the employer pursuant to the provisions thereof.

4. LIMITATION TO OPERABILITY

This Order shall be operative only as long as the State of California pick-up of employee retirement contributions continues to be excludable from gross income of the employee under the provisions of the Internal Revenue Code.

IN WITNESS WHEREOF I have hereunto set my hand
and caused the Great Seal of the State of

EXECUTIVE ORDER D-54-86

WHEREAS, The Governor's Task Force on Toxics, Waste and Technology has rendered its report and has recommended advances and improvements in the areas of research, development, and training involving personnel in the academic, industrial and public sectors to ensure the safe handling and disposition of hazardous materials; and

WHEREAS, it is essential that a comprehensive and coordinated training program be fostered to ensure the highest quality of skill and expertise on the part of those involved in hazardous waste management, including those employed in private industry as well as those seeking to regulate hazardous waste activities on behalf of local and state government; and

WHEREAS, substantial progress in the development of new technologies for the management of hazardous waste would be enhanced by the fostering of demonstration programs and projects for the testing of these emerging technologies;

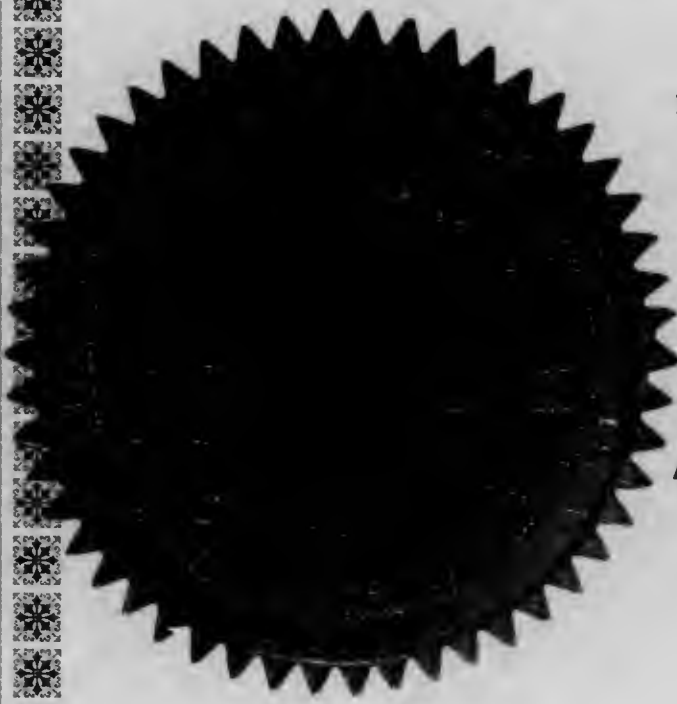

NOW, THEREFORE, I, GEORGE DEUKMEJIAN, Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby order as follows:

1. The Department of Health Services shall undertake a program to foster an expanded and more formal relationship between all state, local and federal agencies, as well as between private and public universities, professional associations and societies, and private industry with the chief goal and objective to improve coordination of hazardous waste research efforts.
2. The coordinated research fostered by the Department of Health Services shall focus upon, and encourage the continued examination of the effects which complex mixtures of chemicals have on the public health, the effects of the transport of toxic materials as they move through the environment, and the most effective application of technologies to minimize adverse health and environmental efforts in these areas.
3. The Department of Finance in coordination with the University of California and the Department of Health Services shall evaluate the costs and benefits of the University of California's Toxics Research and Teaching Program to determine their needs to ensure vital research in this field.
4. The Department of Finance in coordination with the Department of Health Services shall assess the costs, benefits and implementation of a comprehensive competitive research grants program in the field of hazardous waste management, with an appropriate combination of "directed" and "investigator-initiated" qualified private and public research entities in California.

5. The Department of Finance, in coordination with the Department of Health Services, shall assess the costs, benefits and implementation of a competitive program for the award of special fellowships to pre-and postdoctoral students of proven ability who are committed to research topics relevant to the management of hazardous waste.
6. The Department of Health Services shall immediately develop and adopt regulations for the implementation of a uniform system for the issuance of "demonstration permits" for hazardous waste management facilities with the objective to encourage, evaluate and introduce new technologies in this field.
7. The Department of Health Services shall provide reasonable assistance and advice to institutions of higher learning which seek to establish new academic programs to train scientists and other professionals in the hazardous waste management field.
8. The Department of Finance shall initiate discussions, examine alternatives, and determine means for the following:
 - (a) The Office of Emergency Services to immediately undertake action to improve existing "first-responder" training programs to ensure standardization of curriculum and response procedures;
 - (b) The Peace Officer's Standards and Training program to develop a curriculum for the training of sworn peace officers, local environmental health officers, and local and state prosecutors with the objective to promote detection of hazardous waste law violations and vigorous prosecution of violators; and
 - (c) The Department of Health Services to establish a one-year program of state grants to local district and city attorneys and environmental health officers for the enhancement of local law enforcement programs in the field of hazardous waste management.

IT IS FURTHER ORDERED that by December 31, 1986, and every six (6) months thereafter until completed, the Department of Health Services shall submit to me a report of the progress made in advancements of research, development, education and training within the hazardous waste management field.

EXECUTIVE ORDER D-55-86

WHEREAS, the expeditious cleanup of existing hazardous waste sites is a critical part of the State's goal of managing and disposing of toxic waste safely; and

WHEREAS, legal barriers exist which impede the cleanup of hazardous waste sites; and

WHEREAS, cleanup coordination among all involved agencies is necessary to ensure site cleanup activities are carried out effectively; and

WHEREAS, the Governor's Task Force on Toxics, Waste and Technology drew upon a broad expertise to develop recommendations to expedite and improve the current cleanup process;

NOW, THEREFORE, I, GEORGE DEUKMEJIAN, Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby order the following:

1. The Department of Health Services, Secretary of Environmental Affairs, the Water Resources Control Board and California's Regional Water Quality Control Boards shall publicize the Hazardous Substance Cleanup Arbitration Panel and promote its use.
2. The Department of Insurance shall conduct hearings to assess alternatives to private insurers offering Environmental Impairment Liability insurance.
3. The Department of Health Services and other involved state agencies shall enter into a memorandum of understanding with the Federal Environmental Protection Agency to determine the lead agency for given conditions and to follow established protocol in resolving conflicts.
4. The Department of Health Services, the Air Resources Board and Regional Air Quality Management Districts, the Water Resources Control Board and Regional Water Quality Control Boards and the California Waste Management Board shall enter into a memorandum of understanding that specifies each agency's responsibilities in site cleanup, defines standards and criteria for use in remedial action plan development, and identifies a conflict resolution process to resolve interagency disputes.
5. The Department of Health Services and Regional Water Quality Control Boards shall review their current processes to determine the procedures necessary to provide better compliance with CEQA as a functionally equivalent program and shall then adopt the necessary regulations and procedures to provide better

environmental protection and public involvement consistent with CEQA requirements. These regulations shall be expeditiously reviewed by the Secretary of the Health and Welfare Agency and the Secretary of Environmental Affairs, who shall assist the Department and the Boards in attaining functional equivalency.

6. Effective immediately, the Department of Health Services shall take further steps to ensure that their emergency response authority is most effectively used to expedite and implement interim cleanup measures.
7. The Department of Finance, the Board of Equalization and the Department of Health Services shall study alternative ways to augment the present fee structure for the Hazardous Substance Account.
8. The Department of Health Services shall further streamline the site cleanup contracting process to ensure timely administrative handling and improve contract quality. In addition, the Department of Health Services should take appropriate action to develop systems to streamline permitting for site cleanup technologies for which significant operating and technical performance data are known.
9. Effective immediately, the implementing agencies should ensure that remediation plans to clean up hazardous waste sites use the best feasible treatment technology to control pollution and protect public health and the environment.

IT IS FURTHER ORDERED that by December 31, 1986, and every six (6) months thereafter until completed, the Department of Health Services shall submit to me a report of the progress made in expediting and improving the current site cleanup wastes in California.

EXECUTIVE ORDER D-56-86

WHEREAS, Californians currently generate hazardous waste at a rate which will soon exceed the existing capacity of private and public treatment and disposal facilities; and

WHEREAS, a substantial quantity of this hazardous waste is simply deposited on or in the ground without treatment and as such represents a threat to the public's health and safety, and the environment; and

WHEREAS, the Task Force on Toxics, Waste and Technology strongly recommends the elimination of land disposal of untreated wastes;

NOW, THEREFORE, I, GEORGE DEUKMEJIAN, Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby direct the Department of Health Services, and other appropriate and involved state agencies to implement the comprehensive and phased program, as outlined in the Task Force final report, to eliminate land disposal of untreated waste in California; and hereby order the following:

1. In implementing a phased program, the Department of Health Services shall establish an Information and Technology Clearinghouse to ensure that industry and the public are fully apprised of all significant information on available waste reduction, treatment, and recycling technologies and working with the Department of Finance, pursue appropriate means to provide fiscal incentives for the use of alternative technologies for waste reduction, treatment and site cleanup. Special emphasis should be directed toward small businesses and small waste generators.
2. The Department of Health Services shall establish reduction of the volume of hazardous waste as a principal goal. In this regard, waste reduction shall include both source reduction (producing less waste), as well as recycling or reuse (e.g., utilizing the hazardous waste produced from industrial and commercial activities as a byproduct for acceptable purposes).
3. Since proven technologies exist to treat over 80% of the hazardous waste previously sent to land disposal, the phased program should emphasize, whenever possible, that hazardous wastes shall be subject to methods of detoxification and decomposition that render them nonhazardous to environment and to the people of California.
4. The Department of Health Services shall establish a preference for onsite treatment of hazardous waste rather than offsite treatment when onsite treatment is technically and economically sound. However, since not all wastes can be economically managed onsite, a number of commercially available offsite treat-

ment facilities will be required throughout the state. The development of definitive county or regional hazardous waste management plans and an overall statewide plan are necessary elements of an effective program to ensure that adequate treatment and disposal capacity is developed for the businesses and industries in California.

5. State agencies involved in the planning, siting, and permitting of treatment facilities shall enter into a memorandum of understanding that specifies each agency's responsibilities, and defines a mechanism to quickly resolve differences that impede issuance of necessary permits. These agencies should undertake an analysis of the siting and permitting of onside efforts to determine whether there is a need for future coordination of the associated permitting process.
6. In view of concerns regarding toxic substances (including pesticides) in agricultural drainwater, appropriate state agencies should continue to review, address, develop, and implement comprehensive programs for the establishment of water quality objectives and regulation of agricultural drainwater which is hazardous in order to protect the public health and the environment in a manner which provides protection equivalent to the regulation of other hazardous wastes.
7. Technologically sound and environmentally safe residual management facilities, both interim and permanent, shall be established for the storage of the irreducible residues of waste treatment. In carrying out the charge, the Department of Health Services should provide assistance to local governments and private industry already involved in establishing residuals management facilities and work with them to expedite the siting and permitting process.

NOTE: IT IS FURTHER ORDERED that by December 31, 1986, and every six (6) months thereafter until completed, the Department of Health Services shall submit to me a report of the progress made in eliminating land disposal of untreated wastes in California.

WHEREAS, although extensive energy and resources from both the public and private sectors have been focused on the cleanup of hazardous waste sites, the unsafe disposal of hazardous waste remains a serious threat to the public health; and

WHEREAS, the public health will benefit from improved treatment and monitoring systems for hazardous waste; and

WHEREAS, in order to effectively address the health problems posed by these cancer-causing substances, it is imperative that all involved agencies coordinate their activities and work together for the common good; and

WHEREAS, the Governor's Task Force on Toxics, Waste and Technology has recommended the development of a thorough monitoring and review system to better protect the public from the dangers of hazardous waste;

NOW, THEREFORE, I, GEORGE DEUKMEJIAN, Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby order the Department of Health Services and other involved state agencies to:

1. Develop an effective and comprehensive system of environmental monitoring and evaluation that can be maintained at all residuals management facilities, multi-user hazardous waste treatment sites, and at large onsite treatment facilities.
2. Take appropriate action to ensure that, to the maximum extent feasible, hazardous wastes are not commingled before offsite treatment unless the commingling enhances treatment.
3. Ensure that the best technology necessary to protect public health and the environment is used in treatment, and the most effective technology necessary to control pollution which threatens public health and the environment, is utilized.

4. Direct the State Water Board and Department of Health Services to continue their review of existing laws and programs intended to prevent wastes, or other substances that cause cancer or pose other serious hazards to public health or reproductive processes from entering air and water supplies; such agencies shall develop proposals to strengthen existing programs and laws as determined to be necessary by these continuing reviews.

EXECUTIVE ORDER D-58-86

WHEREAS, the use of illicit drugs has substantially increased in recent years, and has serious adverse effects upon both the drug user and those who rely on the drug user for support and services; and

WHEREAS, employees who use illegal drugs, whether on or off duty, are generally less productive, less reliable, and prone to greater absenteeism than employees who do not use illegal drugs; and

WHEREAS, the use of illegal drugs has resulted in billions of dollars of lost productivity each year, occasioned by the reduced efficiency and increased absenteeism of employees who abuse drugs; and

WHEREAS, the impact of illegal drug use is felt in both the public and private sectors; and

WHEREAS, the use of illegal drugs by State employees generally is inconsistent with the law-abiding behavior expected of all citizens, and with the special trust placed in such employees as servants of the public; and

WHEREAS, the use of illegal drugs, whether on or off duty, by State employees impairs the efficiency of State departments and agencies, undermines public confidence in them, and interferes with the job performance of employees who do not use illegal drugs, and thereby increased the cost of government to the taxpayers of California; and

WHEREAS, the use of illegal drugs by State employees in certain positions of sensitivity and trust poses a special risk to public safety and the effective enforcement of the law; and

WHEREAS, the State of California, as an employer, has a responsibility to taxpayers to insure that state functions are performed efficiently, and without undue risk to the people of the state; and

WHEREAS, the State of California, as an employer, is also concerned with the well being of its employees and should encourage the identification and rehabilitation of employees with drug problems; and

WHEREAS, the President of the United States, in recognition of the serious problem of illegal drug use by federal employees, on September 15, 1986 issued an executive order establishing standards and procedures designed to achieve a drug free Federal work place; and

WHEREAS, a need also exists to establish standards and procedures to achieve a drug free State work place;

NOW, THEREFORE, I, GEORGE DEUKMEJIAN, Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby issue this order to become effective immediately:

1. The Department of Personnel Administration, in Consultation with the State Personnel Board, shall develop policies and guidelines designed to achieve a drug-free State work place, while protecting the privacy and with due regard for the constitutional rights of State employees.
2. Such policies and guidelines shall include the following:
 - a. Provision for identifying illegal drug users, including a program to test for the use of illegal drugs by employees in "sensitive" positions. The positions included in the drug testing program shall be determined by the Department based on the degree of risk created by the unauthorized use of drugs, with due consideration to the nature of the agency's mission, the employee's duties, and the danger to the public health and safety that could result from the drug related impairment of the employee.
 - b. Provision for suspension or removal of employees from "sensitive" positions based upon drug use.
 - c. Provision for treatment of employees with drug problems, including counseling and rehabilitation programs, with procedures to protect the confidentiality of treatment records.
 - d. Provision for confidentiality of test results.
3. All State agencies responsible to the Governor are directed, and all other public entities are requested, to assist the Department of Personnel Administration in discharging its responsibilities under this order.
4. Nothing in this order shall be deemed to abrogate any existing policy or directive relating to drug use by state employees, or to affect any existing or future state employee disciplinary proceeding.

- (b) The entire State Ceiling for each calendar year is hereby allocated to the Committee to further allocate to state and local agencies as provided herein. There shall not be included in the amount of the State Ceiling allocated to the Committee for 1986 any amount which represents Private Activity Bonds issued after August 15, 1986 and prior to the date of this proclamation, and which are required by the Code to count against the State Ceiling for 1986.
- (c) The Committee shall prepare application forms and announce procedures for receipt and review of applications from State and Local Agencies desiring to issue Private Activity Bonds.
- (d) The Committee may at any time, before or after granting any allocations in any calendar year to any State Agencies or Local Agencies, announce priorities or reservations of any part of the State Ceiling not theretofore allocated either for certain categories of bonds or categories of issuers.
- (e) The Committee may require any issuer making an application to the Committee or MBAC for allocation of a portion of the State Ceiling to make a deposit to the State of up to one percent (1%) of such portion requested. If an allocation is not given, such deposit shall be returned. If an allocation is given, the deposit shall be kept (in proportion to the amount of allocation given) until bonds are issued. Upon such issuance, the deposit shall be returned to the issuer in an amount equal to the product of (i) the amount of the deposit retained times (ii) the ratio between the amount of bonds issued divided by the amount of allocation granted. If no bonds are issued prior to the expiration of the allocation, the deposit shall be kept, unless the Committee determines there is good cause to return all or part of the deposit.
- (f) The Committee may transfer part of the State Ceiling to the MBAC, to be used for qualified mortgage bonds and exempt facility bonds for qualified residential rental projects (together referred to as "housing bonds"), with directions and conditions pursuant to which MBAC may allocate such amounts to issuers of "housing bonds" at both the State and local level. In carrying out such function, MBAC shall act solely as directed or authorized by the Committee, to the full extent such delegation is based upon the powers granted to the Governor under the Act. If the Committee makes the transfer to MBAC authorized by this subsection (f), the references in Sections 5, 6(a), 7 and 8 to the "Committee" shall, for purposes of any "housing bonds," be deemed to mean MBAC.

5. (a) Each State Agency shall apply to the Committee for allocation of a portion of the State Ceiling, supplying such information as the Committee may require. Such application may be for a specific project, or it may be for a designated dollar amount, to be utilized for projects or programs at the discretion of the State Agency. No Private Activity Bonds issued by any State Agency shall be deemed to receive the benefit of any portion of the State Ceiling unless the Committee has allocated or permitted the transfer of a portion of the State Ceiling to the State Agency. Such allocation may be on such terms and conditions as the Committee may determine.
- (b) Any Local Agency may apply to the Committee for an allocation of a portion of the State Ceiling, supplying such information as the Committee may require. Applications from Local Agencies may only be for specific projects or programs. No Private Activity Bond issued by any Local Agency shall be deemed to receive the benefit of any portion of the State Ceiling unless the Committee has allocated or permitted the transfer of a portion of the State Ceiling to such Local Agency. Such allocation may be upon such terms and conditions as the Committee may determine.
- (c) Any allocation made pursuant to this section shall be irrevocable upon issuance of bonds pursuant thereto at least to the extent of the amount of such bonds so issued. Any allocation shall not permit the State Agency or Local Agency receiving same to use all or any portion of it for a carryforward pursuant to Section 146(f) of the Code unless the Committee expressly allows use of the allocation for a carryforward.
- (d) No allocation made to a State Agency or a Local Agency pursuant to this section may be transferred by the initial recipient thereof to any other State Agency or Local Agency unless the Committee expressly permits such transfer. With the Committee's permission, any State or Local Agency may, by resolution, transfer to any other Local Agency or to any State Agency or back to the Committee all or any portion of such Agency's Private Activity Bond Limit. Any such transfer shall be made in writing and may be general or limited and subject to such terms and conditions as may be set forth in said resolution or under the Committee's permission; provided that any such transfer shall be irrevocable upon issuance of bonds pursuant to such transfer at least to the extent of the amount of such bonds so issued. Each transferee shall maintain a written record of the transfer in its records for at least the term of all Private Activity Bonds issued pursuant to such transfer. No transfer may be made pursuant to this section in return for any payment of cash, property or other marketable thing of value.

6. (a) Subject to any limitations on transferred Private Activity Bond Limit as may be provided in Section 5(d), any State Agency or Local Agency may utilize its Private Activity Bond Limit (i) for the issuance of Private Activity Bonds, (ii) if permitted by the Committee, to make a carryforward election pursuant to Section 146(f) of the Code, or (iii) if permitted by the Committee, to make a transfer to any State Agency, Local Agency, or the Committee.
- (b) Prior to issuing any Private Activity Bonds, the Issuer shall, in the bond resolution or other similar action giving approval for the issuance of bonds, specifically designate to such bond issue a portion of the Private Activity Bond Limit available or expected to be available to such Issuer. Any such designation shall be irrevocable upon the issuance of such bonds to the extent of the amount thereof.
- (c) Each State Agency and Local Agency shall notify the Committee in writing within 15 days after (i) the issuance of any Private Activity Bonds, (ii) any action taken pursuant to Section 5(d) to transfer any portion of its Private Activity Bond Limit, or (iii) any election to treat all or any portion of such State or Local Agency's Private Activity Bond Limit as a carryforward pursuant to Section 146(f) of the Code. The Committee (or upon its termination, the State Treasurer) shall keep such notices in its records for a period no less than the term of all Private Activity Bonds issued pursuant to such notices.
- (d) Any State Agency or Local Agency which has issued any Private Activity Bonds between August 15, 1986 and the date hereof shall notify the Committee of such issuance within fifteen (15) days of the date of this proclamation.
7. The Committee may request Local Agencies and State Agencies to provide the Committee with information pertaining to the amount and purpose of anticipated future Private Activity Bond issues, or any other information which may be held useful to the Committee in performing its duties and responsibilities hereunder.
8. The Committee may transfer any Private Activity Bond Limit directly to any joint powers authority created pursuant to Government Code Section 6500 et seq. This section is specifically intended to be an expressed statement of an alternative allocation as provided in Temporary Treasury Relations Section 1.103(n)-3T, A-14 and A-15, to the extent such Regulations, or any successor thereto or similar regulations, shall be applicable to Private Activity Bonds.

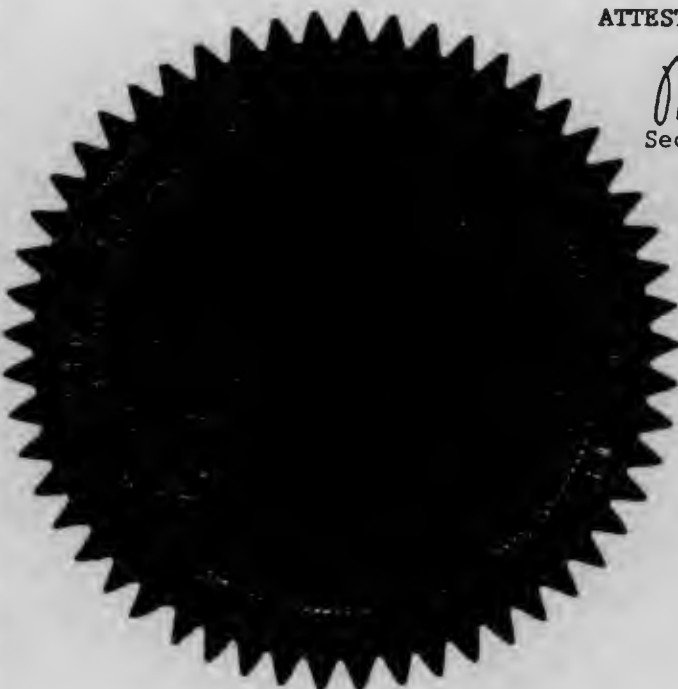

9. Notwithstanding any other provision of the proclamation, the Committee may, upon such terms and conditions as it shall determine, authorize the use of a portion of the State Ceiling, as contemplated by Section 146 (n) of the Code, in connection with the issuance by any State or Local Agency of Mortgage Credit Certificates under a Qualified Mortgage Credit Certificate Program, as those terms are defined in Section 25(c) of the Code.
10. This proclamation is intended to provide a full, fair, flexible and workable means of utilizing the State Ceiling available under the Code, and it shall be liberally construed and implemented to achieve such purposes.
11. This proclamation shall terminate on the earliest of the following dates:
 - (i) January 1, 1988,
 - (ii) the effective date of any bill enacted by the Legislature governing the method for making allocations of the State Ceiling, or
 - (iii) January 1, 1987, if the Act is not signed into law by the President prior to that date.

By virtue of the authority vested in the Office of the Governor by the federal Tax Reform Act of 1986 (P.L. 99-514) (the "Act"), I, George Deukmejian, as Governor of the State of California, hereby proclaim as follows:

1. Unless the context otherwise requires, the terms defined in this section shall for all purposes of this proclamation have the following meanings:
 - (a) "MBAC" means the Mortgage Bond Allocation Committee created by Section 50185 of the Health and Safety Code.
 - (b) "Code" means the Internal Revenue Code of 1986, as amended from time to time.
 - (c) "Housing Credit Applicant" means any owner or prospective owner of qualifying low-income housing who applies to the MBAC via application to a State or Local Agency for:
 - (i) an allocation of a portion of the current State Housing Credit Ceiling; or
 - (ii) a reservation of a portion of the anticipated State Housing Credit Ceiling of a subsequent year.
 - (d) "Housing Credit Recipient" means any owner or prospective owner of qualifying low-income housing who receives from the MBAC:
 - (i) an allocation of a portion of the current State Housing Credit Ceiling; or
 - (ii) a reservation of a portion of the anticipated State Housing Credit Ceiling of a subsequent year.
 - (e) "Qualified low-income building or project" or "project" means any "qualifying low-income building or housing project" as defined in subsections 42(c)(2) and 42(g) of the Code.
 - (f) "State" means the State of California.
 - (g) "State Agency" means the Department of Housing and Community Development or the California Housing Finance Agency.
 - (h) "Local Agency" means any city, county, or city and county.
 - (i) "State Housing Credit Ceiling" means the amount specified in subsection 42(h)(3)(C) of the Code for each calendar year commencing after 1986.
 - (j) "Statewide Housing Plan" means the plan required to be produced by the California Department of Housing and Community Development pursuant to Section 50450 of the Health and Safety Code.

2. The MBAC, at any time, may announce priorities or set aside a portion of the current or anticipated State Housing Credit Ceiling. In order to promote the provision of affordable low-income housing within and throughout the State, the MBAC is encouraged to consider the following priority usages in the allocation of the State Housing Credit Ceiling:
 - (a) Projects which have been government-assisted affordable housing projects and which are eligible to convert to market-rate rental units.
 - (b) Projects which enhance the benefit of State and/or local financial and nonfinancial resources.
 - (c) Projects targeted to those special needs groups identified in the Statewide Housing Plan.
 - (d) Projects which commit to providing a greater percentage of low-income units and/or for a longer period of time than is required in Section 42 of the Code.
 - (e) Projects which maximize the utilization of credits available to the State.
3.
 - (a) The MBAC shall as soon as is practicable after the date of this proclamation, and thereafter after the start of each calendar year, determine and announce the State Housing Credit Ceiling for the calendar year.
 - (b) The entire State Housing Credit Ceiling for each calendar year is hereby allocated to the MBAC which is designated as the State's only Housing Credit Agency within the meaning of Section 42(h) of the Code.
 - (c) The MBAC may reserve a portion of the anticipated State Housing Credit Ceiling for a subsequent year for a Housing Credit Applicant. As a condition to making any allocation or reservation, the MBAC may require the Housing Credit Recipient to make a deposit in an amount and manner as determined by the MBAC. The MBAC shall determine policies describing the circumstances under which deposits will be returned or forfeited in whole or in part.
4. The MBAC shall:
 - (a) Prepare application forms and announce procedures to be followed by Housing Credit Applicants to apply for:
 - (i) an allocation of a portion of the current State Housing Credit Ceiling; or
 - (ii) a reservation of a portion of the anticipated State Housing Credit Ceiling for a subsequent year.
 - (b) Develop and announce procedures for the review, processing and forwarding by State and Local Agencies of applications referred to in (a).
 - (c) Prepare forms to elicit necessary or requested information from State or Local Agencies, Housing Credit Applicants and Housing Credit Recipients.

5. (a) The MBAC may establish and collect fees payable by the Housing Credit Applicant and/or Housing Credit Recipient to the MBAC to cover its administrative expenses.
- (b) State and Local Agencies, subject to any rule established by the MBAC, may set guidelines for the acceptance, review, and action on applications of and collect fees payable by the Housing Credit Applicant and/or Housing Credit Recipient to cover administrative expenses associated with the provisions of this proclamation.
6. (a) Any allocation or reservation of a portion of the current or future State Housing Credit Ceiling to a Housing Credit Recipient by the MBAC may be upon such terms and conditions as the MBAC may determine. For example, the MBAC may condition an allocation or reservation on the execution of a contract between the Housing Credit Recipient and the MBAC and/or State or Local Agency requiring the Housing Credit Recipient to comply with all the terms of Section 42 of the Code, any applicable State code, and any additional requirements which the MBAC deems necessary or appropriate, and providing for legal action to obtain specific performance or monetary damages for breach of contract.
- (b) No allocation or reservation made by the MBAC may be transferred by the Housing Credit Recipient unless the specific, written approval of the MBAC is obtained prior to the proposed transfer. Any such transfer shall be made in writing and shall be subject to such terms and conditions as set by the MBAC.
7. State and Local Agencies, Housing Credit Applicants and/or Housing Credit Recipients shall provide the MBAC any information which may be requested by the MBAC in performing its duties and responsibilities hereunder.
8. This proclamation is intended to provide a full, fair, flexible and workable means of utilizing the State Housing Credit Ceiling available under the Code, and it shall be liberally construed and implemented to achieve such purposes.
9. If any portion of this proclamation is held unconstitutional or otherwise unlawful, such decision shall not affect the validity or any other portion of this proclamation.

A PROCLAMATION
by the Governor of the State of California

WHEREAS, for many years, May has been commemorated as Mental Health Month by the President of the United States, the United States Congress, the California Legislature and other bodies of elected officials; and

WHEREAS, while advocacy for mental health is important, many myths about severe mental illness still exist, and it would be in the public's interest to learn more about serious mental illness, such as schizophrenia and manic depression; and

WHEREAS, these myths include the mistaken belief that all mentally disabled people are violent, while, in reality, the majority of the mentally disabled are frequently the victims of crimes, not perpetrators; and

WHEREAS, research into the organic roots of serious mental illness has progressed significantly with technological advancements involving specialized X-rays of the brain; and

WHEREAS, while there currently is no known cure for schizophrenia, one of the most serious forms of mental illness, certain medications and other medical interventions can help schizophrenics lead independent and productive lives; and

WHEREAS, reducing the stigma associated with serious mental disorders is an admirable goal that can be reached through greater awareness and public education;

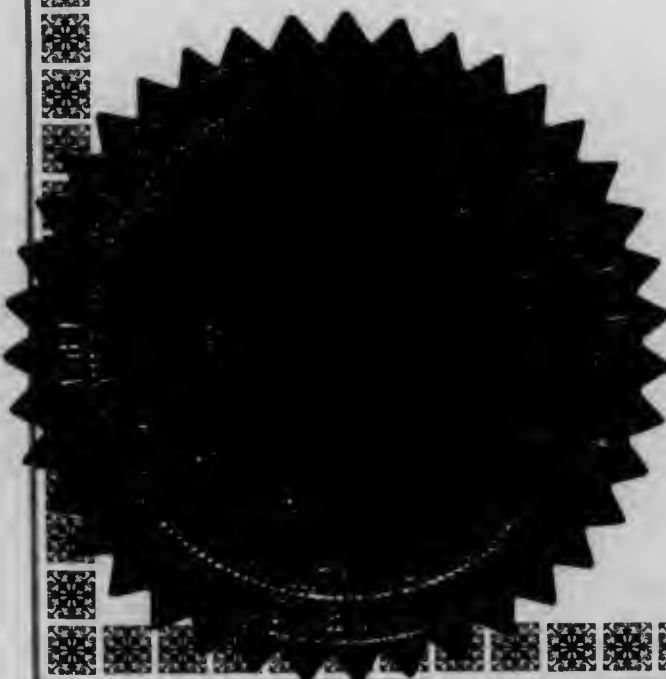

NOW, THEREFORE, I, GEORGE DEUKMEJIAN, Governor of the State of California, do hereby proclaim May 1988 as Mental Illness Awareness Month and May 22, 1988 as Schizophrenia Awareness Day in California and encourage all Californians to take this opportunity to develop a greater understanding of mental illness.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 28th day of April 1988.

WHEREAS, in the urban areas of California, commuters are spending approximately 400,000 hours daily in traffic jams; and

WHEREAS, during the next 12 years, another six million vehicles will be added to California's streets and highways; and

WHEREAS, increasing traffic congestion is a threat to individual well-being, commerce, and the economic and social vitality of California; and

WHEREAS, deteriorating air quality in metropolitan areas is a health threat and a constraint on economic growth; and

WHEREAS, more than 1,100 highway construction projects totaling \$1.7 billion are now underway; and

WHEREAS, during the past five years, ridership on intercity rail systems has increased more than fifty percent; and

WHEREAS, while expansion of streets and highways remains the cornerstone of reducing traffic congestion, nonetheless there will still be insufficient roadway capacity to accommodate this increased traffic; and

WHEREAS, most traffic corridors could be freed of congestion if vehicle occupancy was increased; and

WHEREAS, the recently concluded Governor's Regional Transportation Management Conferences, sponsored by the Air Resources Board, Department of Transportation, California Highway Patrol, Department of Motor Vehicles, and Office of Traffic Safety, resulted in consensus recommendations that state and local government, and private industry, cooperate to better manage urban streets and highways; and

WHEREAS, the California 2010 report by the California Economic Development Corporation recommended making better use of our existing transportation networks; and

WHEREAS, state government as a major California employer must take the leadership in resolving traffic congestion through efficient use of the transportation system.

NOW, THEREFORE, I GEORGE DEUKMEJIAN, Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and the statutes of the State of California, do hereby issue this order to become effective immediately:

1. The Director of Transportation shall establish an Office of Traffic Improvement to oversee the transportation management program described above and to coordinate state efforts to increase ridesharing and transit use among state employees, develop partnerships with local government and private industry to implement traffic management strategies, research and apply new technologies to improve free-flow of traffic, and actively promote ridesharing throughout the urban areas of California.

2. State agencies shall implement a state employee transportation management program designed to result in a 10% reduction in the number of commute trips by state employees during peak commute periods in congested urban areas.

In order to accomplish this goal, the Department of Transportation shall identify those state facilities served by congested commute routes in urban areas. For these facilities:

- o State agencies shall develop specific action plans to achieve a minimum of 10% reduction in commute trips toward a goal of an average of two employees per vehicle during commute periods. Agencies shall submit their plans to the Office of Traffic Improvement by January 1, 1989, and shall update their plans annually thereafter.
 - o State employees working in these facilities shall be eligible for a 50% allowance on monthly transit passes up to a maximum of \$15 per month. The Department of Personnel Administration shall implement and administer this program.
 - o The Department of Personnel Administration shall establish a pilot program in three State facilities to provide up to 30 minutes per day of compensated travel time for those employees coming to work using transit or van pools.
 - o The Department of Personnel Administration shall provide an incentive of up to \$50 per month to state employee vanpool drivers.
 - o The Department of General Services shall establish accessibility to transit services as a requirement for buying, leasing, or building State facilities.
 - o The Department of General Services shall expedite a telecommuting demonstration project for state employees.
3. In addition, to further reduce congestion, State agencies shall reschedule routine commercial deliveries in congested urban areas during hours identified by the Department of Transportation as peak commute times.
4. The Department of Transportation shall implement an ongoing, major public education effort to encourage Californians to use ridesharing. This would include an outreach program using, for example, Department of Motor Vehicle mailers, payroll inserts, and mass media to advise the public and employers of the benefits of reducing traffic demand.
5. The Department of Transportation shall use advanced technology whenever possible to improve traffic flow.

PROCLAMATION
OF A
STATE OF EMERGENCY

I, **GEORGE DEUKMEJIAN**, Governor of the State of California, find that conditions of extreme peril to the safety of persons and property exist within the County of Los Angeles, State of California, beginning on December 7, 1988, as a result of high winds and a series of fires. Upon the request of the Board of Supervisors, County of Los Angeles, and because the magnitude of this disaster exceeds the capabilities of the services, personnel and facilities of the county, and because of the continuing fire threat and extremely high winds, I therefore proclaim a State of Emergency to exist in the County of Los Angeles; and

I **FURTHER DIRECT** that as soon as hereafter possible, this proclamation be filed in the Office of the Secretary of State and that widespread publicity and notice be given to this proclamation.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 9th day of December 1988.

by the Governor of the State of California

WHEREAS, while crossing the boundaries of age, race, religion and socioeconomic position, the tragic effects of drug and alcohol abuse continue to devastate individuals and families throughout our state and nation; and

WHEREAS, substance abuse also results in reduced worker productivity and an increase in fire damage claims, violent crime, health and medical costs, and motor vehicle accidents, all of which account for an annual loss of over \$17.6 billion to California's economy; and

WHEREAS, drug and alcohol abuse often lead to lower grades, loss of employment, criminal activity, the deterioration of individual physical and mental capacity, and, if left unchecked, may ultimately result in death; and

WHEREAS, it is an intolerable travesty that substance abuse has become so prevalent among our youth, as over 15 percent of California's eleventh grade students have tried some sort of illegal drug by the time they are sixteen, while over 60,000 high school students throughout our state use marijuana on a daily basis; and

WHEREAS, in 1987-1988, there was a dramatic rise in the number of juveniles detained for drug-related offenses which corresponded to an overall increase of 12.4 percent in drug law arrests throughout California; and

WHEREAS, the social response to substance abuse has become increasingly impatient and intolerant and has manifested itself in stronger penalties for drunk driving, drug possession and cultivation and crimes committed while under the influence of drugs or alcohol; and

WHEREAS, it is important that we continue to promote effective drug education and prevention programs and harsher penalties for convicted drug offenders, so that our neighborhoods and communities will be safe from criminal activity resulting from the buying and selling of illegal drugs; and

WHEREAS, the Office of Criminal Justice Planning, in coordination with Californians for a Drug Free Youth, Inc. and the California Department of Alcohol and Drug Programs, is sponsoring Drug Abuse Prevention Awareness Week and Red Ribbon Week observances throughout California to help increase public awareness of substance abuse education and prevention programs;

STATE OF EMERGENCY

I, **GEORGE DEUKMEJIAN**, Governor of the State of California, have found that conditions of extreme peril to the agricultural industry and the safety of agricultural properties exist within the County of San Bernardino, State of California, caused by the discovery of an infestation of the Mediterranean Fruit Fly, on or about September 25, 1989. Pursuant to the proclamation, I hereby direct all agencies of the state government to utilize and employ state personnel, equipment and facilities for the performance of any and all activities to alleviate this emergency.

I, **GEORGE DEUKMEJIAN**, Governor of the State of California, have found that conditions of extreme peril to persons and property exist within the City of Tracy and the County of Solano, California, beginning on October 17, 1989, as a result of major earthquake and aftershocks. Upon the request of the City Council of the City of Tracy and the Board of Supervisors of the County of Solano, and because the magnitude of this disaster exceeds the capabilities of the services, personnel, and facilities of the affected city and county, I, therefore, proclaim a State of Emergency to exist in the City of Tracy and the County of Solano; and

Pursuant to the proclamation, I hereby direct all agencies of the state government to utilize and employ state personnel, equipment and facilities for the performance of any and all activities to alleviate this emergency and, furthermore, direct the implementation of state disaster assistance programs in accordance with state law; and

EXECUTIVE ORDER D-82-89

WHEREAS, on October 17, 1989 a major earthquake occurred in Northern California; and

WHEREAS, on October 18, 1989 the Governor proclaimed a State of Emergency to exist in the affected counties and requested Federal assistance; and

WHEREAS, on October 18, 1989 the President of the United States declared a major populated area of Northern California a disaster area; and

WHEREAS, the estimated economic cost to recover from this disaster is many billion dollars; and

WHEREAS, that same disaster area, with unique topography and corresponding transportation characteristics, has experienced a major disruption to its transportation system; and

WHEREAS, traffic congestion presented a serious threat to economic well-being prior to this disaster; and

WHEREAS, without an immediate reduction in vehicular trips, notably single occupant vehicles, congestion will cripple the economic recovery to this disaster and accelerate that economic deterioration; and

WHEREAS, the State is a major employer in the affected area;

NOW, THEREFORE, I, GEORGE DEUKMEJIAN, Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby issue this order to become effective immediately:

1. Effective immediately and until further notice, all State agencies, departments, boards, and commissions with offices in Alameda, Contra Costa, Marin, San Francisco, San Mateo, Santa Clara, Santa Cruz, and San Benito counties shall expand their transportation management efforts to effect an immediate reduction in vehicular trips by implementing the following actions:
 - * Appoint an Employee Transportation Coordinator for each facility to work with its department's Traffic Management Coordinator who in turn will work with the Caltrans Office of Traffic Improvement.
 - * Schedule all activities including routine work schedules in accordance with local efforts to stagger demand for critical transportation facilities, including, but not limited to, implementation of 4/40 or 9/80 work week schedules as practicable.
 - * Make arrangements to temporarily reassign employees to offices closest to their homes or implement telecommuting procedures and programs to increase work at home or at satellite facilities.

- * Encourage employees to increase their use of mass transportation including rail, bus, and ferry service, by increasing employer subsidies in conjunction with Department of Personnel Administration instructions.
 - * Encourage employees to increase their use of vanpools and carpools by increasing the availability of State equipment for such service. Departments that own vans shall notify the Department of Transportation, Office of Traffic Improvement, of their availability.
 - * Where feasible, limit single occupant vehicle parking and provide free parking to any vehicle transporting four or more employees to their workplaces.
 - * Participate, where feasible and beneficial, in the Department of Personnel Administration's Compensated Commute Time Pilot Program.
 - * Limit employee travel to the Bay Area to multiple occupant vehicles.
2. Until further notice, the Department of General Services, and other departments that operate fleets, shall coordinate the travel of employees to avoid single occupancy vehicle trips to the affected counties.
 3. Until further notice, the Department of Personnel Administration shall extend the Compensated Commute Time Pilot Program to any State agency office in the affected counties requesting to participate, and shall include participants in carpool of four or more persons as well as vanpoolers and transit riders.
 4. Until further notice, the Department of Personnel Administration shall increase the maximum for the transit pass allowance to \$30 in the affected counties. This shall apply to passes only, will be subject to federal tax, and shall take effect immediately.
 5. Until further notice, the Department of General Services and Teale Data Center, in cooperation with the private sector, shall provide consulting support to businesses and local governments which are considering telecommuting operations as a response to the emergency.

EXECUTIVE ORDER D-78-89

WHEREAS, the Fifth Amendment to the United States Constitution, applicable to the State of California by the Fourteenth Amendment, and Article I, Section 19, of the California Constitution, guarantee that private property shall not be taken for public use without just compensation; and

WHEREAS, recent United States Supreme Court decisions in Nollan v. California Coastal Commission, 483 U.S. 825 and First English Evangelical Lutheran Church of Glendale v. County of Los Angeles, 482 U.S. 304, have affirmed that state governmental actions, including regulations, that do not formally invoke the condemnation power may result in a taking of private property, even temporarily, for which just compensation is required; and

WHEREAS, responsible fiscal management and fundamental principles of good government require that government decision makers evaluate carefully the effect of their regulatory actions on constitutionally protected private property rights; and

WHEREAS, the executive branch of the State of California is comprised of numerous agencies, departments, boards and commissions whose decisions may potentially affect private property interests; and

WHEREAS, state government should be a leader in demonstrating sensitive consideration of protected private property rights and in avoiding unintended and undue financial burdens on the state budget, while state agencies fulfill their statutory duties;

NOW, THEREFORE, I, George Deukmejian, Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby issue this order to become effective immediately:

1. All agencies, departments, boards, and commissions shall:

a. Consistent with fulfilling their statutory duties, evaluate their proposed regulatory actions in light of guidance provided in the aforementioned Supreme Court decisions and other relevant judicial authority in order to ensure the appropriate protection of private property rights consistent with the provisions of the United States and California Constitutions.

b. Assure that their actions are properly supported by the administrative record, by statutory and other legal authority, and fully comply with the guidance set forth by the United States Supreme Court, including consideration of the following principles:

(i) Governmental actions resulting in a physical invasion, or physical damage to private property may constitute a taking.

(ii) Governmental actions which interfere with the use and enjoyment of, or access to and from private property may constitute a taking.

(iii) For governmental actions which amount to a taking the actions result in a "temporary" taking.

2. The legal staff of the Department of General Services may be requested to provide guidance and technical assistance to any departments seeking to evaluate the potential private property impacts of agency proposals.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 20th day of December 1989.

I, **GEORGE DEUKMEJIAN**, Governor of the State of California, have found that conditions of extreme peril to the agricultural industry and the safety of agricultural properties exist within the Counties of Los Angeles and San Diego, State of California, caused by the discovery of an infestation of the Mexican Fruit Fly, on or about May 3, 1990 in Los Angeles County, and on or about May 5, 1990 in San Diego County. Pursuant to the proclamation, I hereby direct all agencies of the state government to utilize and employ state personnel, equipment and facilities for the performance of any and all activities necessary to alleviate this emergency; and

EXECUTIVE ORDER D-85-90

WHEREAS, California is in its fourth straight year of drought, and experts are predicting that this year will be the harshest of the four-year drought period; and

WHEREAS, this year's drought is especially severe in that it is the first time in fifty years that critically dry conditions are affecting virtually all parts of the state; and

WHEREAS, statewide basin runoff is unusually low, at only 40 percent of normal, and only 10 percent of normal in the Central Coast, a vitally-important source of water for the state; and

WHEREAS, these programs, mandatory and voluntary, are attempting to achieve water savings ranging from 10 percent to 30 percent; and

WHEREAS, to preserve our precious but vulnerable water supply, all Californians must adopt responsible, civic-minded roles in reducing water usage, and eliminate unnecessary water use; and

WHEREAS, as a major user of water, it is imperative that our state government play an active role in this concerted effort;

NOW, THEREFORE, I, GEORGE DEUKMEJIAN, Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby issue this order to become effective immediately:

EXECUTIVE ORDER D-86-90

WHEREAS, on October 17, 1989 a major earthquake occurred in Northern California, causing deaths, injuries, and widespread damage to transportation facilities and other structures; and

WHEREAS, an independent Board of Inquiry was formed in November 1989 to investigate the reasons for the collapse of transportation structures and to recommend actions to reduce the danger of tragic structural failures in future earthquakes; and

WHEREAS, the Board of Inquiry found that there is a high probability that one or more major earthquakes will strike heavily populated areas in Northern and Southern California in the future; and

WHEREAS, California's state of earthquake readiness needs improvement to better protect the public safety and our economy from potentially serious impacts of future earthquakes;

NOW, THEREFORE, I, GEORGE DEUKMEJIAN, Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and Statutes of the State of California, do hereby issue this Order, to become effective immediately:

1. It is the policy of the State of California that seismic safety shall be given priority consideration in the allocation of resources for transportation construction projects, and in the design and construction of all state structures, including transportation structures and public buildings.
2. The Director of the Department of Transportation shall prepare a detailed action plan to ensure that all transportation structures maintained by the State are safe from collapse in the event of an earthquake and that vital transportation links are designed to maintain their function following an earthquake. The plan should include a priority listing of transportation structures which will be scheduled for seismic retrofit. The Director shall transmit this action plan to the Governor by August 31, 1990.
3. The Director of the Department of Transportation shall establish a formal process whereby the Department seeks and obtains the advice of external experts in establishing seismic safety policies, standards, and technical practices; and for seismic safety reviews of plans for construction or retrofit of complex structures. The Director shall transmit a summary of this process to the Governor by August 31, 1990.
4. The Director of the Department of Transportation shall assign a high priority to development of a program of basic and problem-focused research on earthquake engineering issues, to include comprehensive

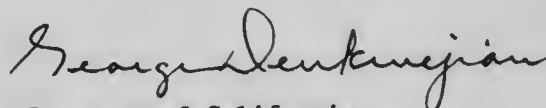

earthquake vulnerability evaluations of important transportation structures and a program for placing seismic activity monitoring instruments on transportation structures. The Director shall transmit a description of the research program to the Governor by August 31, 1990.

5. Local transportation agencies and districts are encouraged to review the findings and recommendations of the Board of Inquiry on the 1989 Loma Prieta Earthquake and to adopt policies, goals, and actions similar to those proposed for Caltrans.
6. The Director of the Department of General Services shall prepare a detailed action plan to ensure that all facilities maintained or operated by the State are safe from significant failure in the event of an earthquake and that important structures are designed to maintain their function following an earthquake. The plan should include a priority listing of facilities which will be scheduled for seismic retrofit. The plan shall further propose measures by which state agencies constructing new facilities or retrofitting existing facilities would:
 - a. be governed by the provisions of a generally accepted earthquake resistant code for new construction;
 - b. secure structural safety review and approval from the Office of the State Architect;
 - c. seek independent review of structural and engineering plans and details for those projects which employ new or unique construction technologies; and
 - d. have independent inspections of construction to insure compliance with plans and specifications.

The Director shall transmit the plan to the Governor by August 31, 1990.

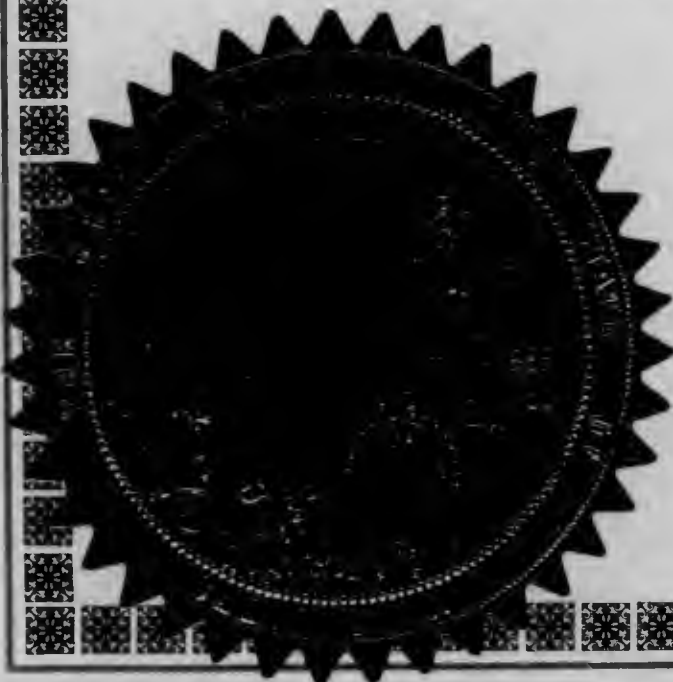

7. The Department of General Services shall, when negotiating leases of facilities for use by state employees or the public, consider the seismic condition of the facilities and shall initiate leases only for those facilities which demonstrate adequate seismic safety.
8. The Seismic Safety Commission shall review state agencies' actions in response to this executive order and the recommendations of the final report of the Board of Inquiry and provide a report to the Governor on the adequacy and status of actions taken by December 1, 1990.
9. The University of California and the California State University shall give priority consideration to seismic safety in the allocation of resources available for construction projects. The University of California and the California State University shall prepare and transmit to the Governor by August 31, 1990 a description of their plans to increase seismic safety at facilities which they maintain or operate.

WHEREAS, the California Department of Corrections has completed a most exhaustive Environmental Impact Report (EIR) for the reception center in Los Angeles County as authorized by Chapter 165, Statutes of 1987; and

WHEREAS, in enacting Senate Bill 18, the Legislature found that "due to the lack of capacity for new inmates in the state prison system, the construction of new prison facilities is of utmost importance to the public safety and well-being"; and

WHEREAS, the Superior Court in Los Angeles County in the case of The City of Los Angeles, etc., et. al., v. A PROCLAMATION
by the Governor of the State of California

WHEREAS, donating blood and bone marrow is a life saving activity and an excellent way to serve others which requires little time or energy and no financial obligation; and

WHEREAS, the National Marrow Donor Program is a clearinghouse which screens donors from throughout our nation to help provide those in need of marrow transplants with the suitable marrow or blood type which they require; and

WHEREAS, finding a donor with the appropriate blood or marrow type is often related to the ethnicity of the donor and the recipient, both of whose blood and marrow must contain specific qualities which will help ensure their compatibility; and

WHEREAS, because transfusion patients often develop antibodies to different blood factors, transfusion recipients must be provided with blood and marrow that exactly matches their own and this is why some patients need transfusions from donors of similar ethnic backgrounds; and

WHEREAS, the demand for blood and bone marrow can be met only through the efforts of dedicated individuals committed to donating on a regular basis, for by sacrificing a few moments of our time to give of ourselves for the benefit of others, lives will be saved and tragedy avoided; and

WHEREAS, in order to satisfy the ever growing requirements of our state's Hispanic population for blood and bone marrow, a statewide Hispanic Blood Donor Week campaign is once again being observed during the second week of December; and

NOW, THEREFORE, I, GEORGE DEUKMEJIAN, Governor of the State of California, do hereby proclaim December 9-15, 1990 as Hispanic Blood Donor Week in California, and urge all our state's Hispanic citizens to donate blood and bone marrow which may one day be valuable in saving the life of another person.

WHEREAS, the AIDS epidemic has affected the lives of men, women and children from all walks of life, causing great pain and devastation for those suffering from the disease, their friends and families; and
